# Eliott CHALIER

Elliott Chalier was born in 1994. He began his photographic practice in Brussels, where he developed his interest in analogue media. *Didascalie* is a journey through several spaces of representation, it is in the out of the field of view, he summons the breach or the technical incident as a link between the image and the spectator.

He is currently working on a collaborative editorial project entitled *le bout des autres*: a tale of a season in the agricultural world, a collection of doubts that singularises the experience as much as it collectivises it.
