

# Lucy VIGOUREUX

My images focus on the beauty of the mundane. I use gestures that I consider "out of the ordinary". Halfway between information and fiction, I capture situations subjectivized by my emotions, tinting them with nostalgia, humour or courage.

My hometown is my favourite subject, Marseille and its unusual side, its charm and its shortcomings. A militant of certain values, I have spent several years fervently following the social movements of a city angry at its interference. Today I am working with the new town hall, dreaming of a policy that adapts to its inhabitants.
